EDUCATION

Indian Institute of Technology Bombay (IIT Bombay)

Mumbai, Maharashtra

Integrated Dual Degree (IDDDP): B.Tech. Mechanical Engineering + M.Tech. AI & Data Science

2022 - 2027

MTech. Project Topic: Large Language Models for Basic Science and Engineering

- Cumulative CPI: 8.27/10

Certifications:

- CFA Level I Candidate | Aug 2026
- Corporate Finance Institute (CFI) Courses (June 2024 – January 2025)
(Equity Markets, Fixed Income, Derivatives, Monte Carlo Risk Modeling, Technical Analysis, Portfolio Management)

EXPERIENCE

UDA Summer Intern | Maritime Research Centre, Pune

May '25 - July '25

- Built a Python-based geospatial analytics platform using Flask and Leaflet.js to visualize submarine cable routes and environmental risk layers, optimizing 1.7GB+ datasets to support infrastructure planning and risk assessment.

Summer Intern | Industrial Research & Consultancy Centre (IRCC), IIT Bombay

May '25 - July '25

- Documented 33 of 41 patent sign-offs (80.5%) across engineering domains, communicating with faculty to ensure compliance and support commercialization and technology-licensing adoption with accountability.

Research & Data Analyst Intern | World of Steel

May '24 - July '24

- Automated Salesforce workflows and CRM–Mailchimp–Google Analytics integration for 200+ accounts; built Power BI and Excel dashboards for green steel market analysis, driving data-backed insights and earning CEO recognition.

PROJECTS

Document AI: From OCR to Agentic Doc Extraction by LandingAI | DeepLearning.AI Course Project

Jan '26

- Built an end-to-end **agentic document intelligence system** processing **50+ complex PDFs**, using **PaddleOCR**, layout parsing, **LangChain multi-agent orchestration**, and **RAG pipelines** to extract structured data, interpret tables/charts, and enable automated question-answering across **1000+ text chunks**.

Panchayat-Led Agro-Processing Investment Proposal | Course Project | Prof. Chaaruchandra Korde

Aug '25 – Nov '25

- Developed a ₹10 crore financial model for an organic jaggery unit with 6-year projections, value chain analysis, and blended financing, achieving IRR 18.3%, NPV ₹5.9M, and ~3-year payback period.

Health Insurance Medical Costs Data Analysis | Course Project | Prof. Narayan Rangaraj

Oct '24 - Nov '24

- Performed statistical analysis and distribution fitting on health insurance data using Python to uncover cost variability and key risk trends via K-S tests and descriptive metrics.

MLB Team Runs Scored Prediction | Course Project | Prof. Narayan Rangaraj

Sep '24 - Nov '24

- Built linear regression models ($R^2 = 90.3\%$) on SQL-extracted data, identifying on-base percentage and slugging metrics as primary drivers of team performance.

Conser-vision: Image Classification | WorldQuant University | Applied AI Lab: Deep Learning for CV

Dec '24

- Developed a Convolutional Neural Network (CNN) using PyTorch and transfer learning techniques to classify wildlife animal images into 10 categories, leveraging data augmentation and regularization for improved accuracy.

Blockchain Technology in Manufacturing | Course Term Paper | Prof. Deepak Marla

Aug '24 - Oct '24

- Analyzed blockchain's role in sustainable manufacturing through case studies and research on carbon credits, supply chain transparency, and IP protection strategies.

POSITIONS OF RESPONSIBILITY

Assistant Manager | IIT Bombay Racing Team

Oct '23 - May '24

- Led business model benchmarking across 20+ international Formula Student teams and organized showcases at Techfest and Tech Connect for India's premier electric race car project.

Interview Coordinator | Placement Cell, IIT Bombay

Oct '23 - Dec '23

- Managed end-to-end interview operations for 1800+ candidates across 15+ companies, ensuring seamless execution of placement tests and interview schedules in a 250-member coordination team.
